This seminar is a unique opportunity to work with the Eight Extraordinary Vessels from a hands-on palpation based Japanese perspective. Learn to palpate DU, REN & DAI MAI for excess and deficiency and to treat these imbalances with chinetskyu moxa & silver needles directly on the meridian. We will review the Master-Couple points of the 8EV and learn how to treat them using Copper-Zinc pellets and okyu moxa. Embryogenesis of the 8EV will also be covered.

Instructor: Ashley Crutchfield, L.Ac has been practicing Japanese style Acupuncture for 21 years. She specializes in hands-on palpation and treatment of DU MAI.
